

The Brownstones

AT ENGLEWOOD SOUTH

November 6, 2013

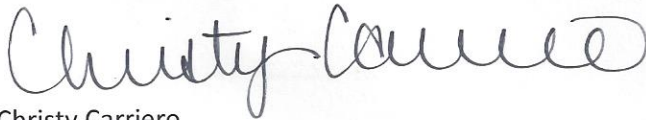

To Whom It May Concern:

This letter is on behalf of Strive Pest Control. They are our professional exterminator for our residential property, The Brownstones, in Englewood. We are an apartment community with 350 apartment homes and 5 buildings.

Strive has been very professional and prompt with the service they provide. They go above and beyond to make sure our residents are satisfied as well as our staff. I really appreciate that they understand that they are an extension of our staff and therefore carry themselves in a most professional manner in dealing directly with our residents while still keeping management in control of communication and decisions that affect the residents.

Their reliable, prompt and professional service is an asset to our property and staff. I would highly recommend their service to any other multi-family housing development or commercial building.

Sincerely,

Christy Carriero
Property Manager
